

THE ANCIENT ORDER; WACO; OKLAHOMA; FEBRUARY 2, 2005

● On March 15, the Ides of March, Roman Emperor Julius Caesar was murdered by his friends and members of the Roman Senate. That is why the ANCIENT ORDER use the Ides of each month as a code of betrayal. They also use the 13th of each month as a code. In March, the day between the 13th and the Ides is March 14, the 73rd day of the year, the "73-code".

● The BRANCH DAVIDIAN COMPOUND at Waco, Texas burned to the ground killing 76 men, women and children on April 19, 1993. Days from Feb. 2nd, 2005:
 April 19 is the 109th day. 256 days left in 1993.....256
 1994 through 2004: 11 years or 4,015 days.....4,015
 3 leap years so add 3 more days.....3
 33 days to February 2nd in 2005.....33

● Total=4,307

● $4,307 = 59 \times 73$. The compound burned to the ground on a date which can be divided by only 2 numbers: 59 and 73.

● There are only 5 days each year the "73" will equate to February 2nd in the year 2005. In 1993 they were:

● February 5 April 19 July 1 August 13 & November 24

● If the compound had not "accidentally" burned down on April 19 in 1993, the next day for the 73 equation would then be 73 days away. In 1993 the ANCIENT ORDER needed April 19 because of what was to be connected later.

● The OKLAHOMA FEDERAL BUILDING bombing killed 168 men, women and children on the 2nd anniversary of Waco: April 19, 1995. Notice that both Waco and Oklahoma have as their vowels only "A&O", the ANCIENT ORDER's initials. April 19 is the 109th day of the year. 256 days left in 1995.....256
 1996 through 2004: 9 years or 3,285 days.....3,285
 3 leap years so add 3 more days.....3
 33 days to February 2nd in 2005.....33

● Total=3,577

● $3,577 = 7 \times 7 \times 73$. Again the 73-code but this time because it is the same date, April 19th. From the exhibit at right it can be seen that Waco and Oklahoma each were a year away from a leap year. There would be a February 29th in 1996. The extra day would cause April 19 in 1996 to not add out to the 73-code. The only way to get April 19 to still equate to the 73-code was to have the bombing take place in 1995, before the leap year of 1996.

● From page 142 of 1984: "...cause the death of hundreds of innocent people..." and talk of corrupting and committing mayhem on children.

● The murder of children is #1-An ANCIENT ORDER tradition and #2-A motivator for the public to accept a quick 'solution', whatever is put forth as the reason. They then go on to their next catastrophic plan to meet their next deadline.

<p>"You are prepared to commit murder?" "Yes." "To commit acts of sabotage which may cause the death of hundreds of innocent people?" "Yes." "You are prepared to cheat, to forge, to blackmail, to corrupt the minds of children, "Yes." "If, for example, it would somehow serve our interests to throw sulphuric acid in a child's face—are you prepared to do that?" "Yes."</p>
