

THE ANCIENT ORDER; JFK, JR.; THE BESSETTES; DR. LASER-RAY

● JFK, Jr., his wife and her sister were killed almost 30 years to the day of Chappaquiddick, the accident which involved his uncle, Senator Edward "Ted" Kennedy, and which killed Senate Aide Mary Jo Kopechne. Chappaquiddick took place just miles from where JFK, Jr., his wife and her sister died. Could this all be a coincidence?

● This is not all just a coincidence. It was all planned (and coded) from the beginning. It was done by the ANCIENT ORDER. This generation of the ANCIENT ORDER must have major, historical incidents to close out the millenium. They have things to place on the history books just as their ancestors did. How will the incidents be recognized as theirs if they are not coded in some way?

● MARY JO CAROLYN JOHN FITZGERALD
A O A O O I E A

The ANCIENT ORDER's initials are "A&O" and their vowels are "A, I, E & O". 30 years ago Mary Jo Kopechne died at Chappaquiddick with a Kennedy driving. The name Mary Jo contains only "A&O", the ANCIENT ORDER's initials. 30 years later it is Carolyn Bessette who dies with another Kennedy, JFK, Jr., her husband. The name Carolyn contains only "A&O", the ANCIENT ORDER's initials, just like Mary Jo.

● JFK, Jr.'s name, John Fitzgerald, contains exactly one of each of the ANCIENT ORDER's vowels, "A, I, E & O".

More tragedies than make sense

1968. July 18. Edward M. Kennedy drives a car off a bridge on Massachusetts's Chappaquiddick Island. Aide Mary Jo Kopechne is later discovered dead in the submerged car.

Just miles from the place where his Uncle Ted drove off the Chappaquiddick bridge and into the rolls of political infamy almost exactly 30 years ago, John F. Kennedy Jr. disappeared.

● The ANCIENT ORDER's main doctor-code is "101", from the 101st element Mendeleevium, named for Dr. Mendeleev.

● BESSETTE KENNEDY MENDELEEV

● Note that all 3; Bessette, Kennedy and Mendeleev, contain only "E"s.

● LAUREN(71) + LISA(41) + CAROLYN(88) = 200

● LAUREN LISA CAROLYN
LA RE S = Laser AR Y = Ray Laser-Ray

● JFK, Jr.'s wife Carolyn had 2 sisters, Lauren and Lisa. Their 3 names together add to exactly 200 and contain the words "Laser-Ray".

● LASER(55) + RAY(44) = 99

● Laser-Ray adds to 99. The total of 200 minus the Laser-Ray(99) leaves exactly 101, the ANCIENT ORDER's doctor-code.

● 101 + 99 = 200 ● Doctor + Laser Ray = 200
